

THE INNOVATIVE POINT OF CARE

*InSight*TM DIAGNOSTIC SYSTEM

Diagnostic testing for biochemistry, haematology and infectious diseases performed at the Point Of Care in virtually any environment or setting

Revolutionise the diagnostic capabilities of remote health clinics at the Point of Care

- Capillary blood sample
- Simple, quick process
- Non-invasive procedure
- Ideal for paediatric diagnostics
- True Point Of Care system
- No regular maintenance required
- No regular servicing required
- No liquid reagents
- No biohazardous waste produced
- No lengthy start-up or shut-down cycles

- 9 haematology parameters
- Up to 22 biochemistry parameters
- Examine for a variety of parasites including malaria

THE INNOVATIVE POINT OF CARE *InSight*[™] DIAGNOSTIC SYSTEM

Combining three of the Worlds most valued dry reagent diagnostic systems for haematology, biochemistry and infectious diseases

BIOCHEMISTRY | HAEMATOTOLOGY | INFECTIOUS DISEASES

Albumin
Alkaline Phosphate
Amylase
Calcium
CPK
Creatinine
Fructosamine
Gamma GT
Glucose
GOT/AST
GPT/ALT
Haemoglobin
HDL-C
Inorganic Phosphorous
LDH
Magnesium
Total Bilirubin
Total Cholesterol
Total Protein
Triglycerides
Urea
Uric Acid

Haematocrit
Haemoglobin
MCHC
Platelet Count
White Blood Cell Count
Granulocyte Count
Granulocyte Percentage
Lymphocyte/Monocyte Count
Lymphocyte/Monocyte Percentage

Malaria
Filariasis
Babesiosis
Trypanosomiasis
Blastocystis
Relapsing Fever
Lyme Disease
Leptospirosis
Trichomonas Vaginalis
Girardiasis
Cryptosporidiosis
Visceral Leishmaniasis

*World's only dry reagent
Point of Care health
screening solution*
